ABOUT US

VAYUCON SYSTEMS PVT LTD - One of South India's leading HVAC Solution providers.

Our Mission: 'To establish and maintain as a growth oriented, profitable and sustainable organization providing enjoyable employee experience, resulting in "Customer Delight" through Quality Products and Services marketed by the company in an environment of fairness and honesty towards our customers, employees, vendors and society'

Established in 2012, the company has taken confident strides towards growth and success for 10 years after inception. Vayucon's dedicated efforts to provide the best quality, honouring timelines has turned Vayucon as the Air-Conditioning service and solution provider in the industry.

Today VAYUCON has served 200+ Clients with a total of Over 45 Million Sqft area Air-Conditioned across South India.

MANAGING DIRECTOR

Spearheading the fast growing Vayucon is a dynamic leader Mr. Mahender Reddy. Mr.Reddy's focus has been the Air-Conditioning industry. he has an impressive 2 decades of experience in the industry. His career started with the largest Air-Conditioning company in India. BLUESTAR Ltd.

In 2012 Mr. Mahender Reddy established Vayucon, a company providing Air-Conditioning solutions for corporates, Businesses, Malls, Residences, Industries, Healthcare Etc. His vision has catapulted Vayucon into a team of young energetic achievevers. The growing client list and upward revenue graph are testimony to the rapid growth and success the organization has experienced in the years after inception.

(Mahender Reddy K)
Managing Director

OUR TEAM

Our team includes 196+ highly skilled, trained and dedicated On-Site and Off-Site Workforce consisting of:

Sales & Marketing

The Sales and Marketing teams ensure everything on ground is organized in terms of conceptual design validation, tendering, providing estimates. They ensure the first step for the client is easy, convenient and transparent with a complete understanding of the project requirements.

Engineering & Planning

Vayucon's experienced Engineering & Planning division sets into action putting designs into physical shape, keeping in view of the clients requirement and desire to provide the best in quality within time. They go beyond design and also coordinate with our installation teams for effective execution of projects and make dynamic changes to address practical site challenges as and when they arise.

Procurement

At Vayucon Procurement management is the systematic approach used for buying all the goods and services needed for the project with best quality at the best price in time. A highly motivated, skilled team lead by senior personnel, play a critical role in achieving project timelines.

Projects

The Projects division plays a vital role in achieving precision in installation Optimum utilization and management of site with a keen eye on the quality and doing regular audits. Vayucon offers value additions such as mobile Internet connectivity for engineers, center of excellence, mobile services, laptops, state of the art engineering tools and dedicated safety teams.

Safety

Vayucon's impetus on providing healthy work environment to its employees ensures Employee Health & Safety management is priority. A separate safety team is directly reviewed and controlled by senior management as safety is the company's top priority.

Service

A skilled set of engineers and technicians man the service department. Always available to resolve issues the service team is the octane that keeps the Vayucon brigade chugging along. Mobile Backup for services and emergencies is ably supported by a 24/7 call centre facility attending to our customers, as and when desired with the help of fully equipped service van.

Quality Control Team (QA):

At Vayucon, we have a dedicated Quality Control team lead by Senior Engineer with 16+ Years industry rich experience managing the quality of work executed at project site at its best keeping in mind the expectations of the Client/Project Manager's. The team visits the project site's very fortnight and inspects the works thoroughly and a detailed report of the visit will be sent to client/Project Manager's.

CONSULTANTS & PMC'S

It is true and evident in our example that the best attracts the best. We have collaborated with the best in the business. Some of the Heating Ventilation Air Conditioning Consultants and Project Management Consultants we have been honored to work with.

EXPERTISE & EFFICIENT MANAGEMENT

Vayucon has expertise on the entire range of Air-Conditioning products and services. Our expertise is complimented by the company's policy of providing best in quality, always on time. We are experts in providing HVAC Services for the following wide range of segments.

IT/ITE's | Hospitality | Health Care | Retails / Malls | Industries | Industries Pharmaceuticals

One of the key reasons, our customers choose us time and again is for our ability to deliver quality service on time and sometimes even early. This has been possible due to our customer centric Project Management practices which include,

- Detailed review of the design intent of the Tender Drawing
- Provide Value engineered solutions
- Establish the design process and micro level schedule
- Preparing the shop drawings by doing site survey / field measurements and obtain approvals
- Logistic plan and approval as per the project requirement
- Quality & Safety induction to workmen and staff to achieve best quality output with safety
- Detailed method statements for Installation practices
- Safety plan and implementation along with resource planning
- Prepare, Update and monitor installation program by updating the progress reports periodically
- Quality control checks during installation stage and sharing the reports to minimize the snags & to achieve best quality output
- Pre-Commissioning checks
- Testing & Commissioning of installations
- Submission of Handing over documents and training to clients personnel

MILESTONES & ACHIEVEMENTS

- ▶ The quality and commitment to work has seen us completing major projects as per clients requirement within tight schedules.
- ▶ Our air conditioning solutions and services have cooled 27 million sq.ft of area till date.
- ▶ Our account reveals the potential-We launched with clocking 10 cr worth of projects in the first year from 2012 - 13. We reached figures of 96cr for 2019 - 20 for the trust our clients bestowed on us through repeated requests for service.
- ▶ The crux of any organization is manpower. At Vayucon special emphasis is put on providing our employees the best facilities ensuring and adhering to employee health and safety standards at all project sites.
- ▶ Each individual employee is covered under medical insurance in line with standards set by the corporate industry.
- ▶ Our expertise and dedication towards completing successful projects within deadline has not just got us repeated service requests, it has also seen a steady rise in demand for our services outside of Bangalore.
- ▶ With a streak of projects in hand and rising client satisfaction Vayucon is poised to expand at unprecedented rates accomplishing many more achievements, collecting laurels through its journey.

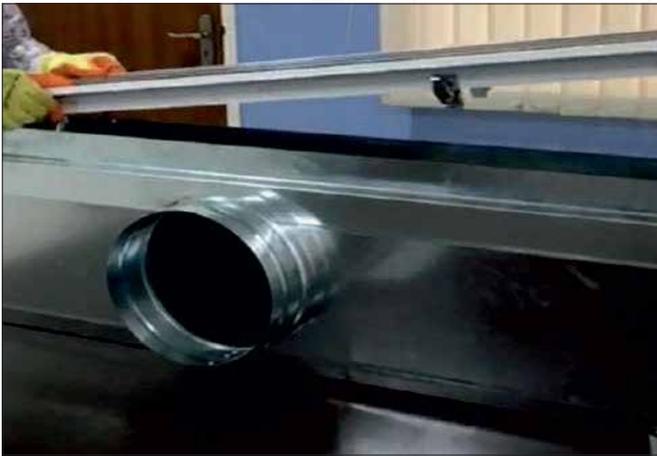

VAYUCON ADVANTAGE

At Vayucan, with our experience of having handled small, medium to large volume projects with almost all leading Design Consultants & PMC's in the industry. We strive to put our best efforts in bringing value added solutions to our clients resulting in complete customer satisfaction, which puts us apart from the crowd & bringing repeated orders from the clients.

List of our value adds are.,

Introduction of Clip-on type system for fixing slot diffusers with Plenum Boxes – achieved very minimum to nil air leakage.

Suit to Duct VAV Boxes – Added best aesthetics in Open ceiling concept

Use of Mechanical Duct lifters to lift larger Ducts & Equipment's

Factory fabricated GI Stands with wide footings for all ODU's

TESTING & COMMISSIONING

At Vayucon, we have inhouse capacity of latest Testing & Commissioning equipment's with trained technicians to carryout the activity which reduces the dependency on third party agencies.

IAQ TESTING

In-house facility for Indoor Air Quality Testing

Indoor air quality is an important health and safety concern for workplaces. Indoor pollution sources that release gases or particles into the air are the primary cause of indoor air quality problems. Inadequate ventilation can increase indoor pollutant levels by not bringing in enough outdoor air to dilute emissions from indoor sources and by not carrying indoor air pollutants out of the area. High temperature and humidity levels can also increase concentrations of some pollutants. Common issues associated with IAQ include:

- ▶ Improper or inadequately maintained heating and ventilation systems.
- ▶ Contamination by construction materials, glues, fibreglass, paints, chemicals, etc.
- ▶ Increase in the number of building occupants and time spent indoors.

When indoor air is not adequate, there may be issues such as:

- ▶ Increased health issues (e.g., eye and respiratory irritations) and, in rare cases, more serious health issues (e.g., carbon monoxide poisoning)
- ▶ Absenteeism and loss of productivity
- ▶ Strained relations between employees and employers

We, at Vayucon, are equipped with the state-of-the-art instrumentation and the technical expertise to perform IAQ testing at our project sites. We use trusted testing kits from reputed makes for reliable results. Some of the salient features of the testing are:

- ▶ Measurement of key IAQ indicators like VOCs, CO₂, CO, O₃, NO₂, %RH, °C/°F, PM, and toxic gas sensor.
- ▶ Store enhanced survey information on-site.
- ▶ Clear displays with numerous readings with data available in tabular and graphic formats.
- ▶ Download logged data and notes to PC for analysis and efficient, detailed reporting.

WORK COMPLETION CERTIFICATE

facebook CBRE

Notification of Virtual Completion

Date of Issue: 01.06.2023.

Project/Client: M/s. Facebook, Hyderabad.

This is a notice of virtual completion of work to the extent that the areas handed over now to be utilized by the Client for the purpose it is intended. We hereby declare that the area(s) handed over is ready for beneficial occupancy and the area(s) is/are attached as Annexure I.

The work or portion of work to which the notification applies has been inspected by authorized representatives of The Client, Project Manager & the Architect and is hereby declared to be virtually complete in accordance with the agreed Program of Work. The conditions of the work are agreed with the Client.

The CONTRACTOR accepts & agrees to complete the pending work (if any) in the area(s) handed over as per the contract. This certificate does not cover the obligations of performance under the contract and the defects liability period will commence only upon satisfactory deliverables from CONTRACTOR & subsequent issue of Substantial Completion Certificate by the Project Manager.

The Client however accepts responsibility for ensuring, operating, maintaining, insuring (subject to their satisfaction) and complete protection from all risks associated with its occupancy of the area(s) handed over.

This act of freedom is subject to the following terms and conditions:

1. Closure of identified pending work by the CONTRACTOR in the area(s) handed over prior to substantial completion.
2. 3 days notice to CLIENT in case of power shutdown or any interruption to operations in the area handed over for integration & workover/works purposes.
3. Maintenance & Operation by CLIENT, of assets identified in the asset list/attached.
4. CONTRACTOR to obtain work permit to gain access & complete the pending work in the area(s) handed over.

OUR SATISFIED CLIENTS

Vayucon's presence is magnified by the clients it has been honored to serve.

"On passionately chasing your dream"Take up one idea. Make that one idea your life; dream of it; think of it; live on that idea. Let the brain, the body, muscles, nerves, every part of your body be full of that idea, and just leave every other idea alone. This is the way to success, and this is the way great spiritual giants are produced."

- Swami Vivekananda
